Core Values

✓ **Responsibility**

Accountability is my core value driving professional growth and those of others.

✓ **Empathy**

Empathy is at the heart of everything I do to gain trust, collaboration and new perspectives.

✓ **Value Realisation**

My practical approach focuses on quick value realisation and continuous optimisation.

✓ **Growth Mindset**

With my optimistic and friendly nature I embrace challenges for personal growth and encourage others to do so.

Services

In need for on-demand expertise to enrich your projects and initiatives? Or would you like someone to lead and delivery your projects and initiatives? With my vast experience in global and complex programs I can adapt to your preferred option and will quickly grasp your strategic business requirements and start delivering value.

Strategy Processes & Workshops

Co-create your business, team or strategic initiative with design thinking principles in mind.

Learning Program Design, Development and Delivery

Make learning stick with practical application. See the results in adoption and business outcomes.

Project and Change Management

My approach is centered on involving stakeholders at every level, to ensure business impact and successful project outcomes.

Innovation Competencies and Future Skills

Upskilling support to develop your team's strategic capabilities to thrive in today's complexities and become a continuous learning organisation.

Individual and Team Coaching

One to one or team coaching sessions to become your authentic and empowered self or a highly collaborative and psychologically safe team.
